

Redesign Kit

With the increasing value of Gold and Platinum, now would be the perfect time to redesign or sell your precious metals.

Other reasons to redesign might be:

- **Make use of items inherited or no longer used or liked anymore.**
- **Create a new heirloom piece of Jewelry to pass onto the next generation.**
- **A newly designed piece of Jewelry using your metal and gemstones makes custom design well within reach.**
- **Not creative? That's ok we will help.**
- **If you like one of our in stock designer pieces, we will take your precious metal and gemstones and apply it towards that purchase.**
- **Why not wear a piece of art that was created just for you?**
